"Mercury transformed this little amp into a useful studio rig that faithfully reproduces the *tone* of all my guitars (and still fits in my car!)."
—Carl Verheyen

NOTE: ALTHOUGH YOU MAY BE ABLE TO PERFORM THIS UPGRADE YOURSELF, WE RECOMMEND THAT YOU HAVE IT DONE BY A QUALIFIED AMP TECH. CALL *Mercury* AND WE'LL PUT YOU IN TOUCH WITH A TECH IN YOUR AREA.

Small affordable tube amps are everywhere. But aside from meeting the most basic requirements of an amp they're typically uninspiring to play—and certainly not suitable for the professional musician. That's exactly why *Mercury* created the ***Studio-Pro Upgrade*** for the *VOX AC4tv*. We took this nicely made, but entry-level amp, and gave it a *toneful new soul*. Effectively restoring all the range, chime and *tonal* distinction that originally made *VOX* amps so unique. The ***Studio-Pro Upgrade Kit*** includes everything you need to fully professionalize your *AC4tv* amp—including an all-out user-friendly manual. Discover what a little *American ingenuity* and great *transformer* designs can do for *your tone*! Call your friends at *Mercury* and get started today!

Why Upgrade Your Amp's Transformers?

If you're looking to *upgrade* your ***tone***, simply replacing your existing *transformers* with the manufacturer's brand won't even come close. In fact, just tossing any ol' replacement *transformers* into your amp *will only put you back where you started... or worse!*

Experienced players and amp techs know that no two tube-based amplifiers sound the same—even when they're from the same build date. And that since the first guitar amps were made only a tiny number of each type are known to have the elusive magic X-factor—the *only* amps that *Mercury* used for its *upgrade* designs.

That's also why we make more than one *transformer* (or matched *transformer* sets) for any given amp. For example, if you are looking to add a little *magic* to your *Fender Deluxe* (or clone), we offer more than 20 *transformer* variations to choose from. And each will give you a distinctly unique sound. No matter what your tube-based amp, the brand, or when it was made, we probably have at least one outstanding set of *Mercurys* for it.

Mercury is famous for having the best old-fashioned-style and most knowledgeable customer service in the business. If you have any question whatsoever about *transformers* for your tube-based amps, call us today!

What you've heard is true—we're actually building them even better now than they did in the '50s and '60s!

WIN a Studio-Pro Upgraded VOX AC4tv

Plus—*Carl Verheyen* "Trading 8s" CDs! Multiple winners!

2 Ways to Enter:

1. Give us your point-of-view on a simple online questionnaire, or
2. Submit a *YouTube* video (counts as 10 entries!).

Here's your chance to **WIN** one of the most sought-after little amps around. We're giving away **6** *VOX AC4tv* amps, including **4** with *Mercury* **Studio-Pro Upgrade Kits**, **2** amps with the **Upgrade** already installed—and at least **2 Upgrade Kits** without the amp. Plus, lots of ***Carl Verheyen*** CDs!

***YouTube* Entry BONUS**: Make a *YouTube* video and move to the head of the pack—your *YouTube* entry counts the same as 10 regular entries! For example—Demonstrate your playing ability, sense of humor, or just pitch us on why you deserve to **win**. Or, if you already have a *Vox AC4tv* tell us why you want the *Mercury* **Studio-Pro Upgrade Kit** to kick it over the top.... All *YouTube* entries can be completely freeform and open to whatever creativity you have at your disposal—but you must mention *Vox AC4tv* and the *Mercury* **Studio-Pro Upgrade Kit** at least four (4) times to qualify.

This contest is open to North American guitarists only. **All** entries must be received by midnight **April 30, 2011**. *For complete rules and to enter the contest, visit* ***www.MercuryMagnetics.com*** *and fill out the questionnaire now!*

The Heart & Soul of Your Amp
Mercury MAGNETICS™
